Name	Size	Type	Modified	Perms	Owner
------	------	------	----------	-------	-------

The screenshot shows the WebApp@UTeM directory interface. At the top, there's a language selector set to 'English', the site title 'WebApp@UTeM', a 'Quick Jump To: Home' button, and a user login status 'Current login as B000000' with a '[Logout]' link. On the left is a 'Directory Tree' sidebar. The main area is titled 'Directory' and shows a path '/ -'. Below the path is a toolbar with icons for Home, Reload, Search, Create New Folder (a folder with a plus sign), Delete (a trash can), Upload File (a folder with an up arrow), and other functions. Three red boxes with arrows point to these icons: one to the Create New Folder icon with the label 'Click here to create new folder', one to the Delete icon with the label 'Click here to delete file/folder', and one to the Upload File icon with the label 'Click here to upload file'. Below the toolbar is a table with columns: Name, Size, Type, Modified, Perms, and Owner.
